DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, for claim 9, the limitations recited after the phrase “means for” in lines 3, 6, 8, and 10 must be shown or the feature(s) must be canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

Art Unit: 2616

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 5, and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "said system" in lines 6 and 10. There is insufficient antecedent basis for this limitation in the claim.

Claims 1 and 2 recite the limitation "said hyperperiod" in line 12 and 4-5, respectively. There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites the limitation "said system" in lines 6 and 7. There is insufficient antecedent basis for this limitation in the claim.

Claims 5 and 6 recite the limitation "said hyperperiod" in lines 8-9 and 4-5, respectively. There is insufficient antecedent basis for this limitation in the claim.

Claims 9 and 10 recite the limitation "said hyperperiod" in lines 11 and 4-5, respectively. There is insufficient antecedent basis for this limitation in the claim.

Claims 2-4, 6-8, and 10-12 are rejected since they depend on claim 1.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Van As et al. (U.S. Patent 5,327,428), Ben-Nun et al. (5,568,470), Knoll et al. (5,742,847), and Grochowski et al. (6,035,389) are cited to show subject matter that is considered pertinent to the claimed inventions.
